Professional Summary

B.Tech Computer Engineering candidate bringing Python, FastAPI, Docker Compose, SQL to backend development work. Practical experience includes Machine Learning Trainee at Example Training Initiative.

Experience

Example Training Initiative December 2024 – January 2025

Machine Learning Trainee | Remote

- Compared TF-IDF and Word2Vec with a Random Forest classifier, reaching 96.6% test accuracy.
- Built an SMS classifier with an NLP preprocessing pipeline.

Adobe Systems India May 2025 – July 2025

React Native Developer Intern | Remote

- Built React Native front-end components for an internal learning system.

Projects

Health Assistant Repository | Deployment

- Built a FastAPI application with spaCy NLP and OpenCV.
- Implemented structured text extraction.

Agent Marketplace Repository | Deployment

- Built an agentic marketplace using Python and MCP.

Voice Model Fine-Tuning Repository | Deployment

- Fine-tuned a language model with QLoRA and PyTorch.

Traffic Simulation Repository | Deployment

- Designed a traffic-control simulation using React Three Fiber.

Technical Skills

Programming Languages: Python, SQL, TypeScript, JavaScript, C/C++
Backend and APIs: FastAPI, Flask
Cloud and DevOps: Docker Compose, Docker, Render
Mobile and Frontend: React, React Three Fiber, Three.js, HTML, React 19, React Native, TanStack Start
AI/ML and NLP: LangGraph, Groq LLM API, bitsandbytes, BERTScore, spaCy, Tesseract OCR, OpenCV, MediaPipe, Model Context Protocol (MCP), MCP Apps, CrewAI, OpenAI Agents SDK, Langfuse, MCP, PyTorch, Hugging Face Transformers, PEFT, QLoRA
Tools: Git

Education

Example University 2023 – 2027

B.Tech Computer Engineering | Aligarh, India

Grade / CGPA: 8.2/10
